Primary and Secondary Vessel Contacts

These are the people we will contact regarding the vessel, their email addresses and telephone numbers will be used for correspondence and possibly authentication. The Primary Contact is the person we will generally contact for the vessel administration such as completing vessel and ownership documentation.

The Primary Contact may be an Owner (individual owner, company director or equivalent) or a Registration agent if applicable.

If a Registration Agent is the Primary Contact an Owner (individual owner, company director or equivalent) must be the Secondary Contact. One must be selected as the invoicing contact. In cases where there is a single owner, no secondary contact is necessary.
